The Two Great Evergreens for American Plantings

For several years we have been getting ready to make a drive on Koster's Blue and Colorado Blue Spruces. The trees have been carefully grown, root-pruned, transplanted as needed, and now they are ready to be shipped.

We will sell them at prices that will be attractive to the man who buys in quantities. If your plans call for a *thousand* trees, or as few as *ten,* write us for prices on

No other evergreens are so effective for mass plantings in city parks, private grounds and cemeteries. Our trees are well-branched, shapely specimens, have splendid roots, are carefully burlaped and packed. These trees are superb specimens—you can plant them with the utmost confidence in their quality and vigor.

HARRISONS' NURSERIES, Berlin, Maryland

The Norway Maples listed below are grown in this block. Notice the space between the rows—plenty of room to develop.

HARRISONS' NORWAY MAPLES—in Extra Large Sizes

You are thoroughly alive to the fact that Norway Maples are "headliners" among the desirable trees for street planting, for grouping in the landscape, and as single specimens.

The important point is to get **good** trees; trees that were properly spaced in the nursery row, so that the early development was not retarded, then transplanted to encourage root growth, trained to a well-formed head, and properly cultivated, so that the trees are strong and with sufficient vitality to stand the shock of transplanting.

Trees of this character are growing in our nurseries at Berlin. From the day the seedings showed above ground they have received the most painstaking care; the sole aim has been to grow Norway Maples that can be planted with perfect safety and best effects in any park or cemetery, or in special landscape work. These superior trees are offered in several sizes, so that you can select just the kind of tree for your special work. At present we list the following sizes and quantities:

We have here at Berlin big blocks of all the desirable deciduous shade trees, shrubs and plants. Another special feature is the section given to evergreens in variety—Blue Spruce, Retinosporas, Hemlocks, White Pines.

Send us a list of your requirements—it will be a pleasure for us to submit special prices.
